No. G001 Water Hose

No. G017 Air Hose

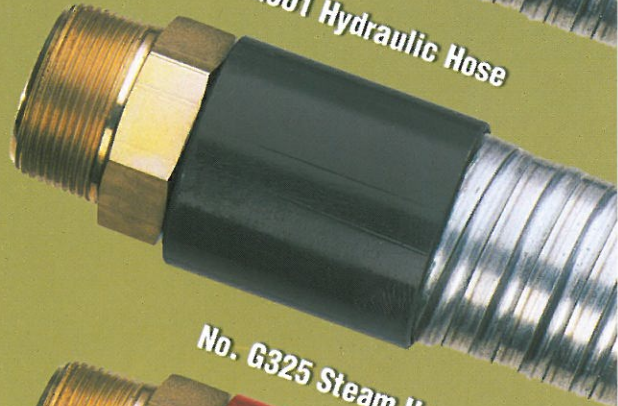

No. G201 Oxygen Hose

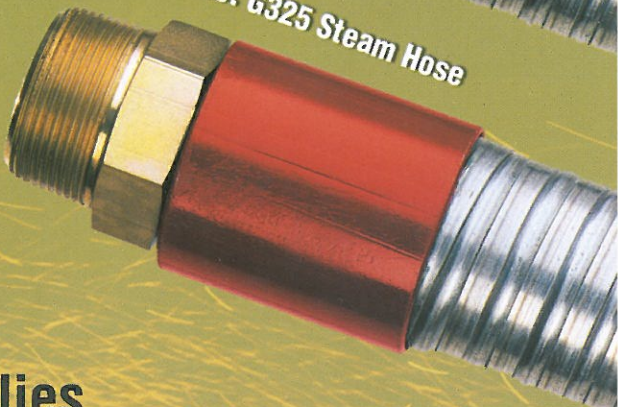

No. G475 Petroleum Hose

No. G501 Hydraulic Hose

No. G325 Steam Hose

## Armor-Flex Assemblies

Armor-flex assemblies are available in sizes 3/8" through 10" and are designed to meet most high temperature critical applications.

Extremely flexible half round ball joint armor is available in carbon or stainless steel and protects hose from direct flame, heat and extreme abrasion.

Each assembly is color-coded and tagged for easy identification for specific applications.

Assemblies are cleaned and capped as required. Special end connections available upon request.
