Hydraulic Hose Assemblies for
Industrial & Agricultural Applications

Hydraulic Hose Assemblies Fabricated to Your Specifications

Competitive Pricing

Call, Fax, or Email your descriptions or blueprints and we will promptly reply with aggressive pricing that will increase your profits.

Friendly Customer Service

No Minimum Order: Order as few or as many needed to meet your needs.

Fast Turn-Around Times: Typical lead time on orders is 2 weeks, however small orders can be processed the following day.

Need it Yesterday? Small quantities can be shipped the same day upon request.

Hy-Tek Features & Benefits

Kit Packaging: Various sizes of assemblies and adapters can be packaged in heat sealed plastic bags, neatly labeled with kit numbers saving you time and money.

Extra Protection: Optional metal spring guards or nylon hose guards.

UPC and Bar Codes: UPC and bar codes can be applied to suit your requirements.

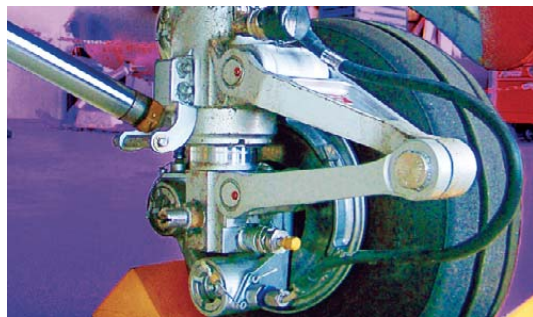

Adapters: A wide variety of sizes and types of adapters are available.

Hose Cleaning System: Assemblies can be cleaned with a cleaning system which achieves cleanliness beyond the visibly clean.

Tight Quality Control

Precision Equipment: Our high volume precision crimping equipment holds tight tolerances for consistent high quality standards.

Everything is Pre-Tested: All orders are tested to SAE specifications to insure a quality product. No order ships without our Quality Control stamp of approval.
